

3xLOGIC Announces New Training Manager, 2019 Training Schedule, and Expanded Resources

Training available onsite or online with all onsite courses offering BICSI credits

WESTMINSTER, CO—21 March, 2019 – [3xLOGIC, Inc.](#), a leading provider of integrated, intelligent security solutions, and a three-time [Deloitte Technology Fast 500™](#) winner, today announced the company's 2019 schedule for onsite and online training. All onsite courses come with the added bonus of BICSI CECs for course completion.

Under the leadership of new Training Manager, Brandon Harless, the company continues to make significant investments in upgrading and expanding training resources during 2019. Harless is a highly motivated, dedicated Learning and Development professional. With over 15 years in the technology industry, he brings a vast array of experience. Roles in leadership, personnel management, project management, and training development and delivery have helped construct his professional DNA. Harless has taught overseas, in the classroom, and for the last 10 years has been training in the corporate environment. He will be based in the company's Indianapolis office.

In 2016, 3xLOGIC training staff built two comprehensive training programs for 3xLOGIC VIGIL video and infinias access control, and succeeded in getting both certified by BICSI for greater student value. The onsite training programs will be offered up to 16 times at 6 different locations throughout the US until the end of November 2019. Online trainings for both VIGIL and infinias will be offered throughout the year for added convenience.

"Training and product education is a key differentiator for us," commented Suzi Abell, Senior Director of Marketing for 3xLOGIC. "In addition to Brandon, we have added a Learning and Development Strategist to aid us in broadening our scope of education. In the coming months, customers will see new courses being added to the curriculum line-up, new tools to make it easier than ever to access training materials while on an installation site, and additional resources dedicated to customer training across the globe as our product offerings and customer base continue to expand."
